

## **About *Crime in the United States, 2009***

Since 1996, editions of *Crime in the United States* have been available on the FBI's Web site [www.fbi.gov](http://www.fbi.gov), first in Portable Document Format (PDF) files, and more recently in Hypertext Markup Language (HTML) files. The FBI's Uniform Crime Reporting (UCR) Program staff are committed to improving their annual publications so that the data they collect can better meet the needs of law enforcement, criminologists, sociologists, legislators, municipal planners, the media, and other students of criminal justice who use the statistics for varied administrative, research, and planning purposes. For more information about how the UCR Program collects data, see [About the Uniform Crime Reporting Program](#).

### **Data provided**

*Crime in the United States, 2009*, presents data tables containing information on the topics listed below. Data users can download Microsoft Excel spreadsheets of the data tables and Adobe PDFs of most of the texts shown.

**Offenses Known to Law Enforcement**—Includes information about violent crime offenses (murder and nonnegligent manslaughter, forcible rape, robbery, and aggravated assault) and property crime offenses (burglary, larceny-theft, motor vehicle theft, and arson).

**Expanded offense data**—Provides additional data that the program collects on the eight offenses. Depending on the offense, these details may include the type of weapon and the type and value of items stolen. For the offense of murder, expanded homicide data include information about murder victims, offenders, and circumstances that are collected as supplemental homicide data.

**Clearances**—Furnishes information about crimes "solved" either by arrest or exceptional means.

**Persons Arrested**—Provides the number of arrests made by law enforcement and the age, gender, and race of arrestees for the 29 offenses (see Offense Definitions) for which the UCR Program collects arrest data.

**Police Employee Data**—Supplies information regarding sworn officers and civilian law enforcement personnel.

**Agencies contributing data**

The table below shows the number of law enforcement agencies contributing data to the UCR Program within each population group for 2009. Information published in *Crime in the United States, 2009*, reflects data from these agencies.

Population Group	Number of Agencies	Population Covered
I (250,000 inhabitants and more)	76	57,278,467
II (100,000 to 249,999 inhabitants)	202	29,918,119
III (50,000 to 99,999 inhabitants)	479	32,650,587
IV (25,000 to 49,999 inhabitants)	866	29,691,658
V (10,000 to 24,999 inhabitants)	1,918	30,367,808
VI (Less than 10,000 inhabitants) <sup>1, 2</sup>	9,321	26,459,228
VIII (Nonmetropolitan County) <sup>2</sup>	3,024	30,232,284
IX (Metropolitan County) <sup>2</sup>	2,099	70,408,399
Total	17,985	307,006,550

<sup>1</sup>Includes universities and colleges to which no population is attributed.

<sup>2</sup>Includes state police to which no population is attributed.

### **National Incident-Based Reporting System (NIBRS) participation**

In 2009, approximately 44 percent of the Nation's law enforcement agencies participating in the UCR Program submitted their data via the NIBRS, and the crime data collected via the NIBRS comprised approximately 26 percent of the data submitted to the FBI. The jurisdictions that reported crime data to the FBI via the NIBRS covered approximately 28 percent of the Nation's population.

### **What do you think?**

The E-Government Act of 2002 (E-Gov), enacted by Congress, promotes more efficient uses of information technology by the federal government. This Web publication is a result of the UCR Program's response to that Act. We welcome your feedback via our short evaluation form. Your comments will help us improve the presentation of future releases of *Crime in the United States*.

### **What you won't find in this publication**

**Rankings by crime levels**—Any comparisons of crime among different locales should take into consideration numerous other factors besides the areas' crime statistics. Therefore, the UCR Program does not provide rankings of localities by crime levels. Variables Affecting Crime provides more details concerning the proper use of UCR statistics.

**Information about unreported crime**—*Crime in the United States* features data collected from law enforcement agencies regarding only those offenses made known to police. However, the Bureau of Justice Statistics (BJS), another agency within the Department of Justice, administers the National Crime Victimization Survey (NCVS). Using data from the NCVS, the BJS publishes information regarding crimes not reported to the police. For more information about the NCVS and how its data differ from

information presented in *Crime in the United States*, see The Nation's Two Crime Measures.

**County crime totals and “raw data”**—*Crime in the United States* offers crime data from local and county law enforcement agencies in separate tables. These data, which are also presented individually within a county (Crime by County), and other 2009 “raw data” from the UCR Program’s master files will be available sometime after the release of the 2009 publication. For more information, contact the FBI’s Criminal Justice Information Services Division via e-mail at [cjis\\_comm@leo.gov](mailto:cjis_comm@leo.gov) or by telephone at (304) 625-4995.

**Special studies**—In previous years, *Crime in the United States* included special studies analyzing UCR data. Such studies are now released separately from the publication as monographs on [www.fbi.gov](http://www.fbi.gov).

**Crime data for 2010**—Preliminary statistics for January through June 2010 will be available on the Web in the fall 2010 and replaced with preliminary data for all of 2010 in the spring 2011. *Crime in the United States, 2010*, will be published on the Web in the fall 2011.
